# FOREWORD

Not in recent years has one musician so captured the imagination of so many as has the gifted and prolific Henry Mancini. His popularity can be analyzed in retrospect, but this is relatively easy for anyone to do. I personally feel that the reason for his wide acceptance is his gift as a composer of *superior* melody – with distinctive shape and contour all its own – coupled with his brilliant skills as an imaginative orchestrator. His musical instincts are genuine and dependable. Proof of this is available for all to hear in a variety of recordings he has made as a composer-arranger-conductor; and in the numerous scores which he has composed, orchestrated and conducted for both television and motion pictures. One such motion picture – which brought forth one of Mancini's best tunes – was the Martin Manulis production for Warner Bros. of **DAYS OF WINE AND ROSES**. The poignant title song, for which Johnny Mercer provided the touching and dramatic lyric, has already become a *standard*.

In arranging **DAYS OF WINE AND ROSES** for concert band, I have attempted to capture the feeling and introspective mood of this unique melody in terms of today's "big sound."

## THE ARRANGER . . .

A versatile composer, arranger and conductor, John Krance received his formal training at the Eastman School of Music. Presently residing in New York City, he arranged and conducted various recordings and provided music for radio, television and motion pictures. He has also arranged and orchestrated music for other conductors and recording artists – among them Morton Gould, Henry Mancini and Frederick Fennell. During his service with the armed forces he was chief arranger for the U. S. Army Field Band of Washington, D.C. – the traveling "showcase band" of the U. S. Army – which toured fourteen European countries, Japan, Korea, Okinawa and Hawaii, as well as making coast-to-coast appearances in the continental United States.

Mr. Krance's devotion to band music has been a labor of love. His compositions and arrangements have received wide acclaim both here and abroad, attesting to his special affinity with and unique insight into this medium.
